EXHIBITOR SECTOR DISTRIBUTION

The 2025 Chongqing Spring CIPM has culminated successfully, and as an exhibitor, we are deeply honored and inspired! At this edition of the expo, we showcased our core products, including Coating Machines, Tablet Press Machines, Lab-Scale Fluid Beds, Lab-Scale Tablet Press Machines, and Granulators, attracting extensive engagement from industry peers through our innovative processes and intelligent designs. We extend our heartfelt gratitude to the organizing committee for crafting this premium platform and to every visiting guest for their attention and insightful discussions. As the pharmaceutical industry accelerates its shift toward intelligent and precision-oriented development, we look forward to deepening collaborations with more partners, empowering high-quality growth in the sector through cutting-edge equipment, and jointly embracing the next milestone in this dynamic industry.

--Romaco Group

As a global leader in pneumatic components and automation solutions, SMC showcased flagship products at this expo that have secured collaboration intentions with multiple pharmaceutical enterprises, driven by their precision control, low energy consumption, and GMP-compliant material properties. These innovations are supporting our partners in achieving production process optimization and sustainable development goals. We deeply appreciate the industry-academia-research integration platform the organizing committee has established, which is accelerating collaborative innovation across the global pharmaceutical equipment sector. We look forward to strengthening our partnership with CIPM through initiatives such as technical seminars and joint standard development, collectively advancing high-quality growth in China's pharmaceutical industry.

-- SMC Automation China Co., Ltd.

As a seasoned enterprise with decades of industry expertise, our return to the CIPM Expo after a decade has deepened our recognition of its vital role as both a witness and catalyst to China's pharmaceutical industry development, facilitating industry dialogue and propelling technological innovation. We have not only observed the expo's comprehensive evolution but also experienced its unique value as an industry bellwether. At this year's event, we garnered significant attention from both existing and prospective clients and partners, while sensing the sector's urgent demand for innovation. This has reinforced our commitment to leveraging CIPM as a strategic platform to showcase cutting-edge technologies in high-end pharmaceutical testing, packaging equipment, and green processes, deepen supply chain collaboration, and explore industry trends alongside peers.

-- Zhongxing Lilian International Trading (Shanghai) Co., Ltd.

CIPM serves as an exceptional platform for learning and exchange. It not only allows us to showcase our innovative achievements but also offers insights into evolving industry dynamics, while fostering connections with new and established partners globally. We look forward to participating in more expo initiatives in the future and wish CIPM continued growth and success as it elevates its impact on the global stage!

-- Yichun Wanshen Pharmaceutical Machinery Co., Ltd.

Through three decades of challenges and triumphs, we extend heartfelt gratitude to CIPM for its steadfast partnership! As China's leading specialized manufacturer of high-temperature sterilization equipment, Huanyu has built a robust domestic and international clientele over the years through CIPM. We sincerely thank the association for providing this premium platform and look forward to joining hands with more pharmaceutical machinery peers to drive collective progress in the industry.

-- Zhangjiagang Huanyu Pharmaceutical Equipment Co., Ltd.

CIPM stands as the most professional and largest gathering in the pharmaceutical equipment sector, bearing witness to the industry's rapid advancement. We sincerely thank the expo for offering us opportunities to demonstrate our strengths and foster growth, enabling us to connect, exchange insights, and learn with clients and peers worldwide. Through these engagements, we continue to accumulate technical expertise and practical experience, empowering us to better serve pharmaceutical enterprises with enhanced solutions.

-- Shanghai Shengguan Machinery Co., Ltd.

BIOPHARMACEUTICAL ZONE

11,000 sqm exhibiting area, includes **110** companies, **36** of which are international companies

95.60% willing to exhibit in the “Biopharmaceutical ZONE” again

86.81% achieve the expected exhibition effect

LEPURE乐纯生物

We are delighted to participate in the Spring 2025 CIPM. During the event, the organizing committee and on-site team demonstrated exceptional professionalism, swiftly addressing diverse needs of exhibitors and allowing us to experience their meticulous and thoughtful services firsthand. At the expo, we showcased our Extreme™ PVDF filtration membranes and LeKrius® membrane materials, gaining invaluable industry feedback and collaboration opportunities. We look forward to continuing our partnership, jointly advancing domestic substitution and intelligent manufacturing to new heights!

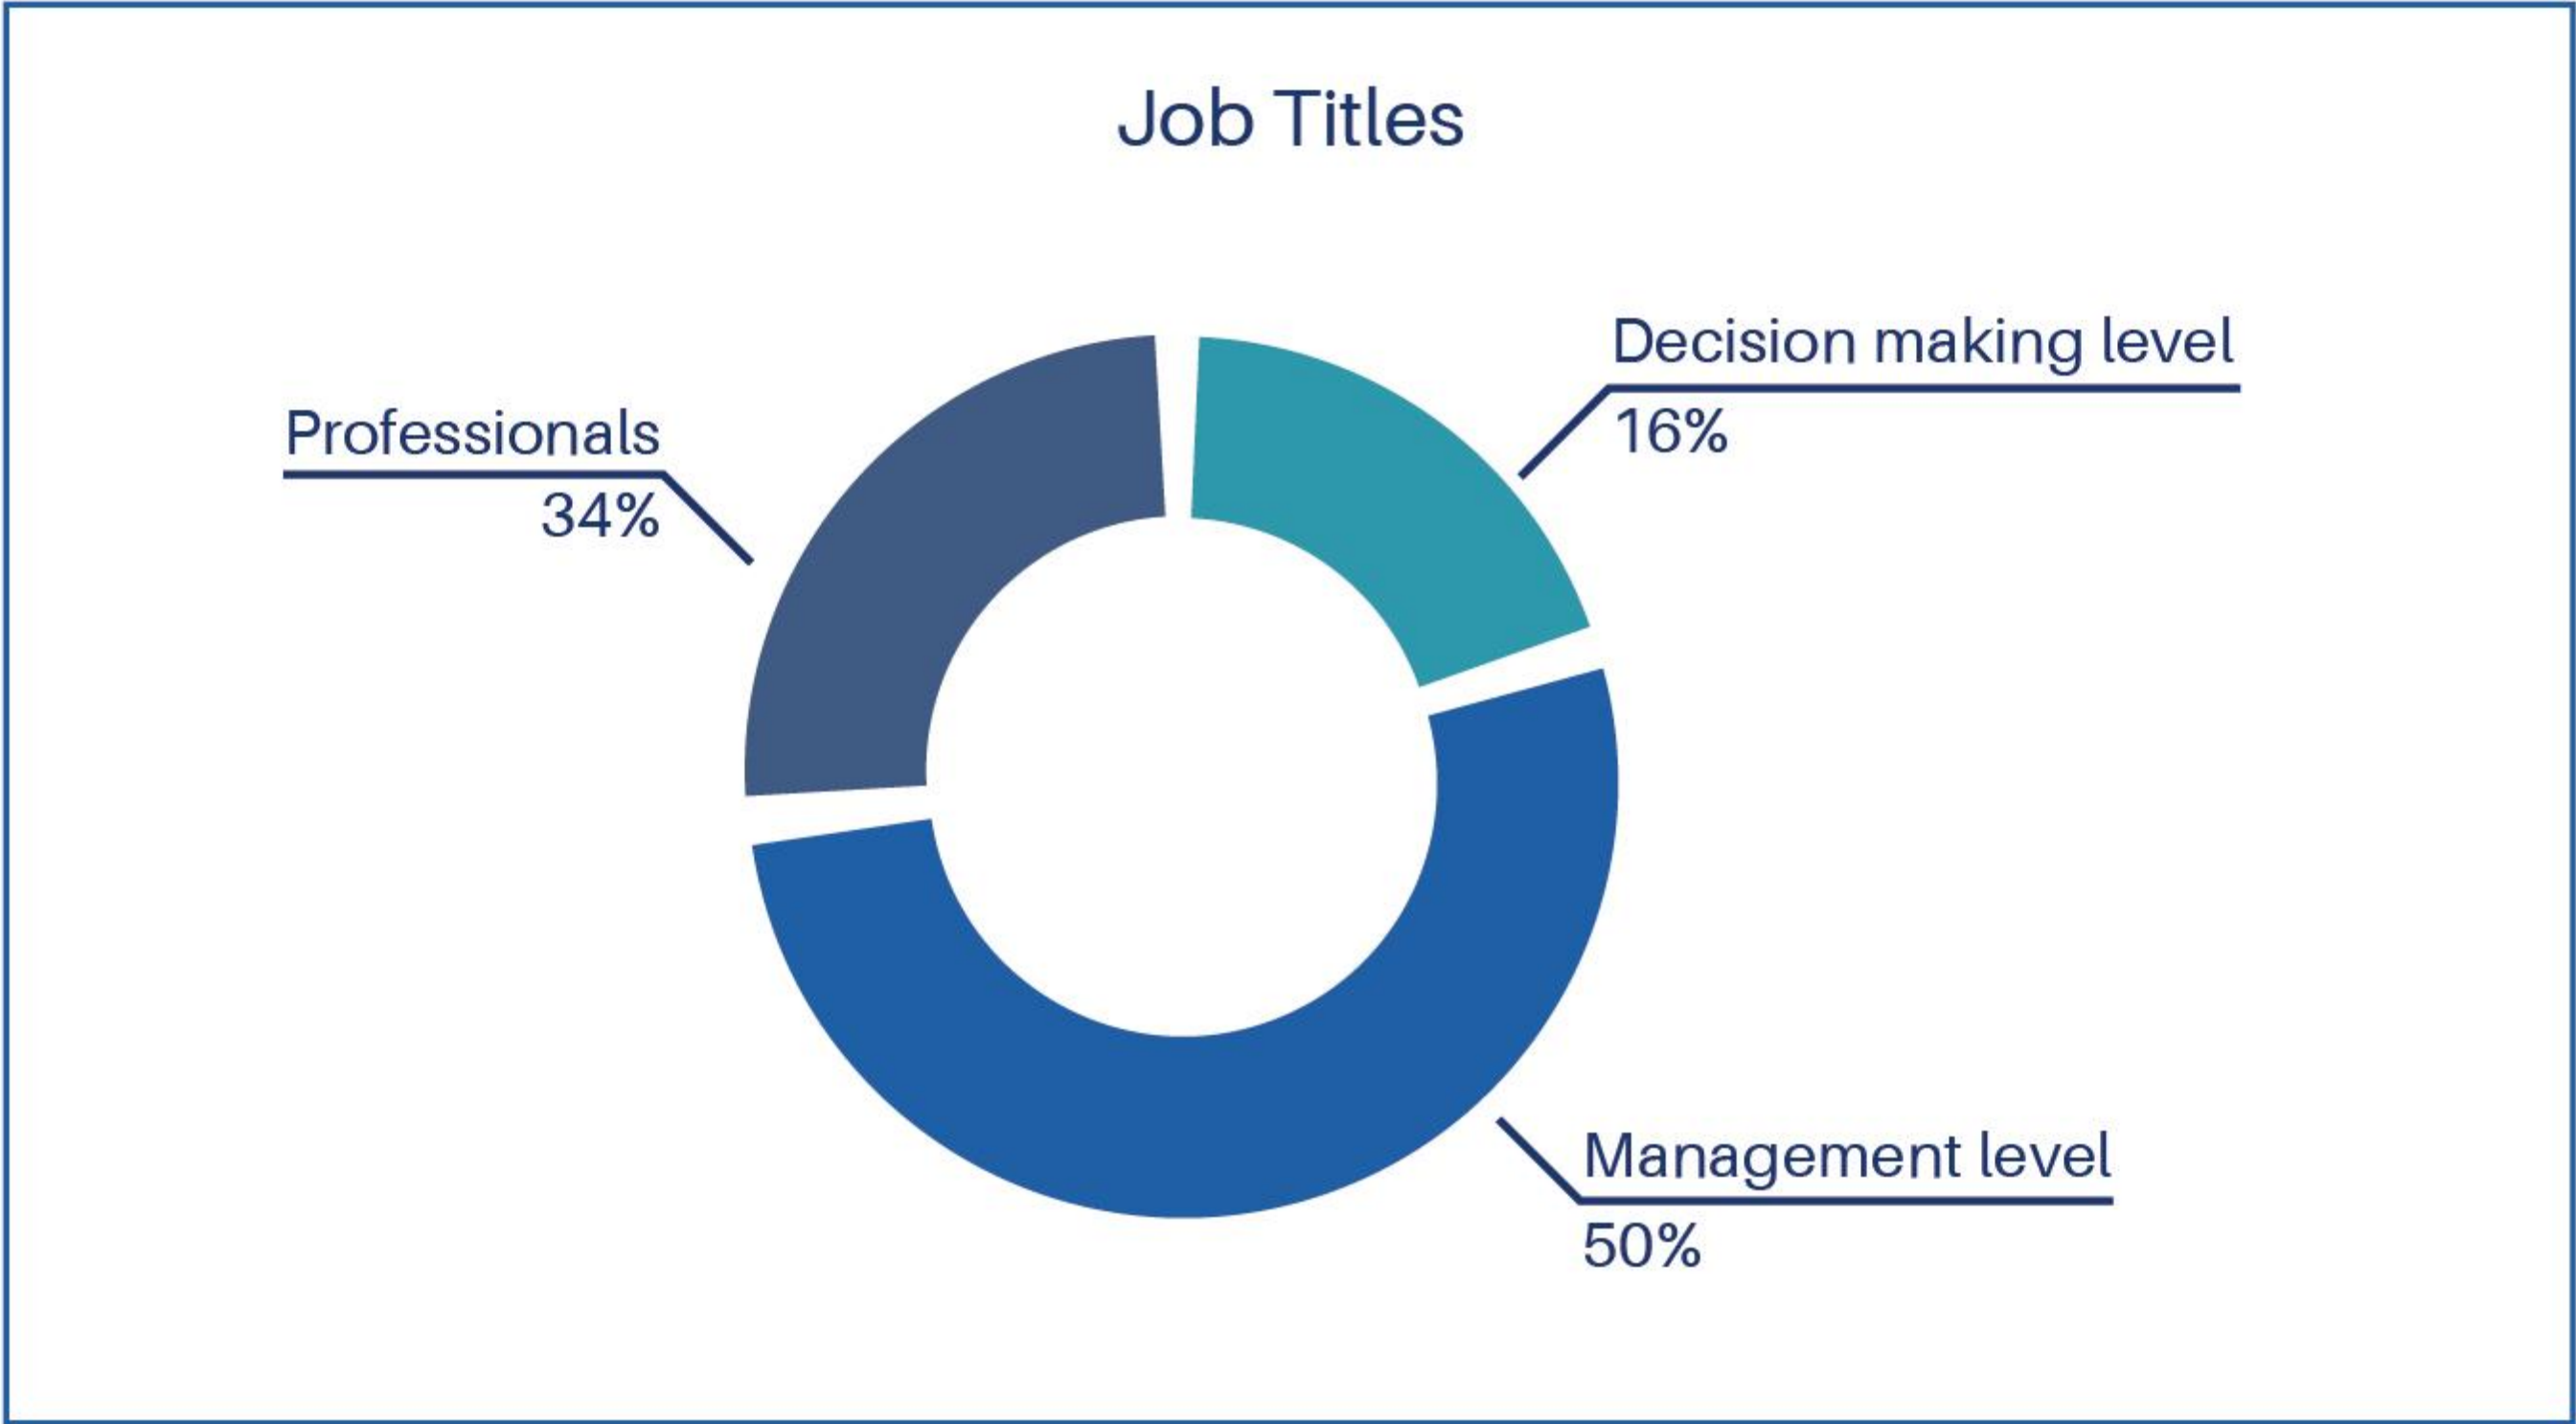

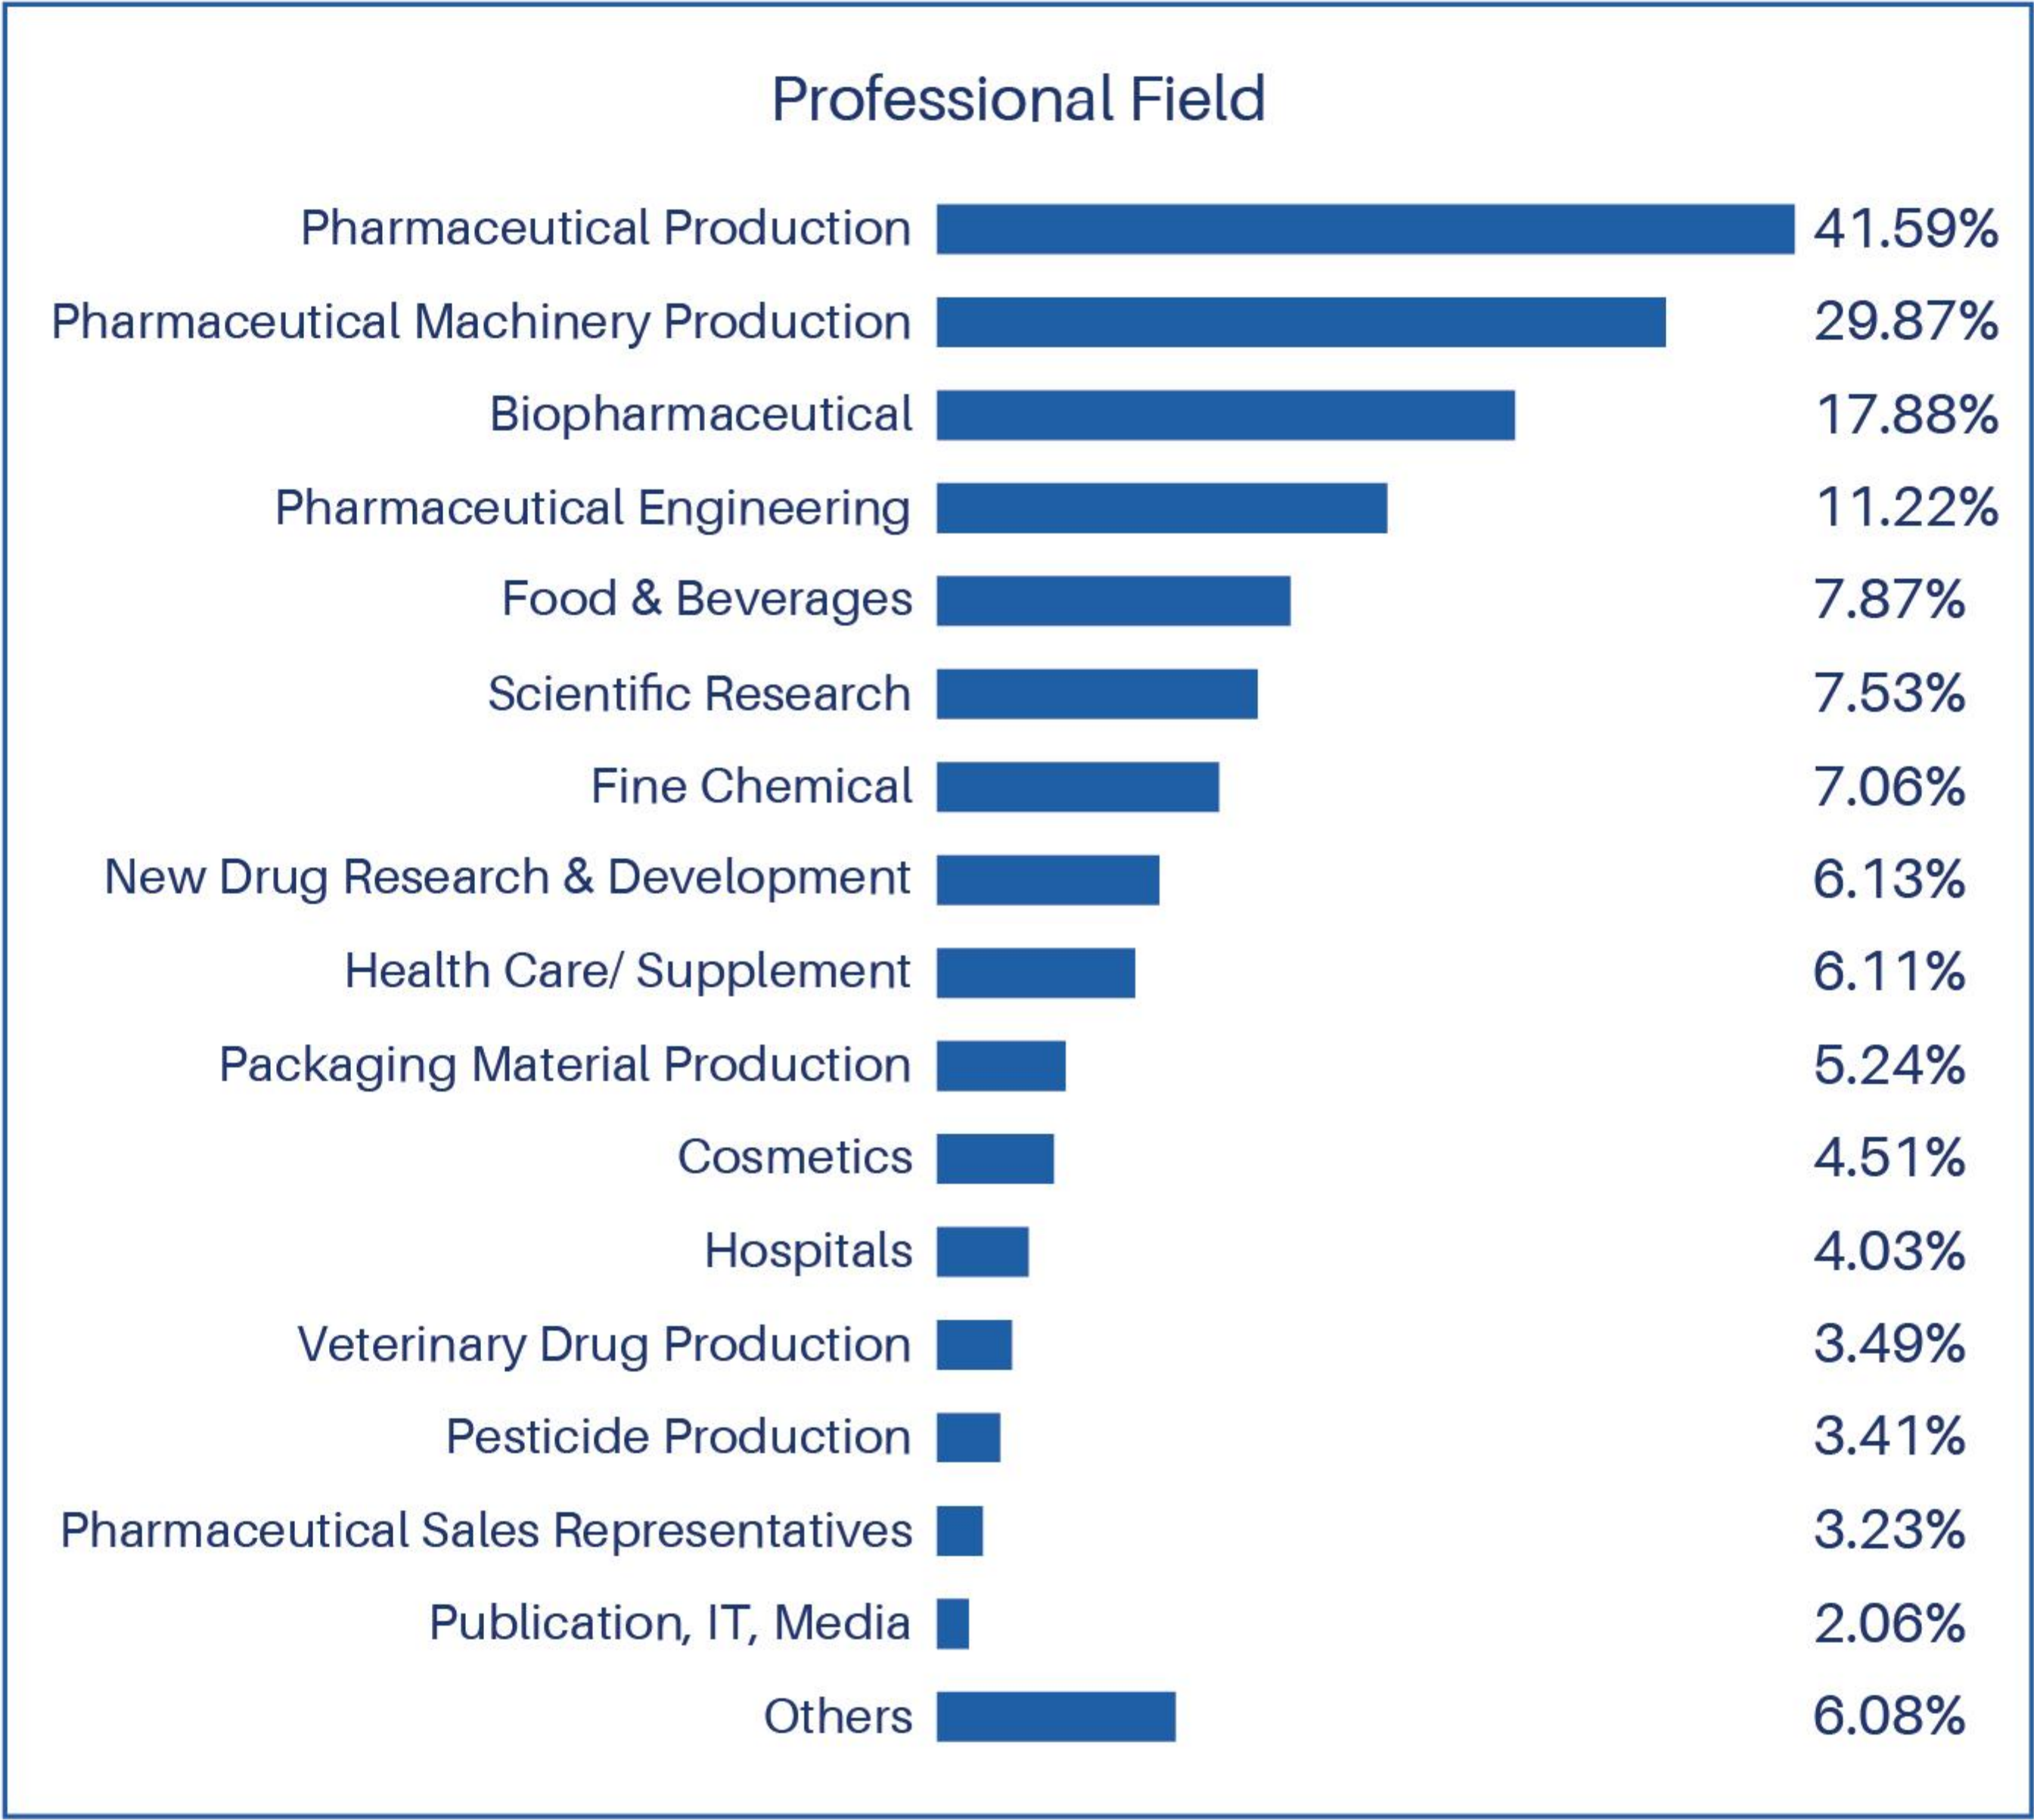

-- Shanghai LePure Biotech Co., Ltd.

Energy Environment Earth 倚世科技

As an innovative practitioner in the pharmaceutical equipment sector, E3 Technology is honored to participate in the Spring 2025 CIPM. We extend our gratitude to the organizing committee for their meticulous arrangements in exhibition zone planning, supporting services, and safety protocols, which created a seamless communication platform for exhibitors and visitors. At this event, we presented our Comprehensive Energy-saving Solution for Intelligent Low-carbon Clean Factory to domestic and international clients. Professional attendees demonstrated strong interest in our technological philosophy and practical case studies. Our technical team engaged in in-depth discussions with clients on process pain points and application scenarios, yielding valuable industry insights and improvement suggestions. These interactions further validated the market value of our solutions.

-- E3 Green Technology Co., Ltd.
