90% Perceived Better Outcomes Than Past Experiences

95% Willing to Exhibit in the "Biopharmaceutical ZONE" Again

We are very satisfied with CIPM, which is a highly professional exhibition. We can always have a chance to make more face-to-face communications in an extensive way with our existing customers and get to know some potential customers during the exhibition. We will continue to display in the biopharmaceutical area next year and we wish CIPM will be better and better.

--Lisure Science (Suzhou) Co., Ltd.

Having cooperated with CIPM for years, we deeply feel that it always adheres to the purpose of building a communication bridge for exhibitors, and makes every efforts to promote international collaborations. As one of the first Chinese enterprises to step into the realm of biopharmaceutical, Morimatsu has established a leading industry position. When witnessing CIPM's continuous growing, Morimatsu, with the valuable platform provided by the organizer, also set up a high-quality brand image to the public, and intuitively presented the latest products and technical services, so as to promote the synchronization of domestic technology with global advanced technology. At this 61st CIPM, Morimatsu appeared in the biopharmaceutical zone with a number of core equipment. We also witnessed the industrial technology upgrading and international development trend, the dynamic market demand and concepts inspired by new elements.

--Shanghai Morimatsu Pharmaceutical Equipment Engineering Co., Ltd.

梅特勒 托利多

We've always perceived CIPM as one of the most influential expositions in the pharmaceutical industry. We pay very close attention to each of our appearance at CIPM. Biopharmaceutical has always been our most important segment. Exhibiting in the Biopharmaceutical Zone at 61st CIPM was not only a very successful attempt, but also aligned with our key industry positioning. Even under the harsh epidemic situation, the number of our intended customers on the first day was twice amount than the last time. This result speaks for itself, showed us the most direct value, also proved the success of CIPM Biopharmaceutical Zone. We very much look forward to our continued interaction with professional customers and perfect appearance in the Biopharmaceutical Zone in the next session.

--METTLER TOLEDO

PHARMAC 法成浩鑫...

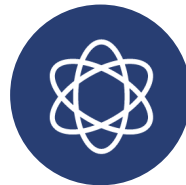

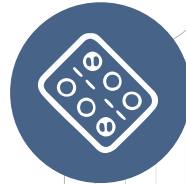

The Biopharmaceutical Zone of the past CIPM can be described as "all the good things are at the right time." By systematically displaying the overall picture of our bio-pharma equipment industry chain, it provides a good display stage for the breakthrough of our bio-pharma equipment short-board technology and the realization of high-quality domestic manufacturing substitutions. With the substantial development of China's biopharmaceutical industry, the process equipment is the core and driving force for the manufacturing. We hope that CIPM will help to break through the bottleneck for bio-pharma industry's development and achieve the next milestone.

--Pharma Champ Pharmaceutical Engineering (Shanghai) Co., Ltd.

FIRST RELEASE PRODUCTS

The 61st CIPM has attracted several leading enterprises to exhibit their innovative products, include:

- Anritsu Industrial Solutions (Shanghai) Co., Ltd. put their worldwide first release Capsule Check-weigher under the spotlight.
- Beckhoff Automation (Shanghai) Co., Ltd. exhibited its XPlanar for the first time worldwide.
